Dear Sir

CAA New Zealand : VFR Approval for Microair 760 VHF

Reference: CASA F97/13464 letter dated 30 March 1998.

The Civil Aviation Authority of New Zealand recognises equipment approvals issued by the Civil Aviation Safety Authority Australia. Accordingly, the reference is accepted by the Civil Aviation Authority. The Microair 760 AM aircraft transceiver is accepted as being suitable for use in New Zealand registered aircraft to meet the Level 2 communication requirements of Civil Aviation Rules 91.513 and 91.515.

The Microair 760 approval is subject to the following limitations:

- (a) restricted to Visual Flight Rules (VFR) operations only;
- (b) not to be used above 25,000 feet ASL; and
- (c) equipment is to be installed in a controlled temperature location.

Yours faithfully

Chris Lamain
Airworthiness Engineer

Microair 760.Doc

cc. Mr Jim Coyne
Principal Engineer Avionics Group
CASA

Mr Ian Mугan
