Microair Transponder T2000

The Swedish Aviation Safety Authority has in cooperation with the National Post & Telecom Agency decided to accept the German national JTSSO-C74c authorization No. 10.930/066 JTSSO.

The Swedish acceptance is based on the validity of the German JTSSO-approval for the T2000.

Based on above, the Microair Transponder T2000 is classified as a Swedish class A equipment.

Yours sincerely,

Sven Jakobsson
